

Attention: Sir / Madam / C.E.O,

Good day,

Date: 05/07/2012

May the blessings of God be upon you with your family and grant you the wisdom and sympathy to understand my situation, I need your help in this establishment. After going through your profile, I was convinced that you are reputable and a trust worthy Person who can assist me in this transaction.

I am contacting you with the hope that you will be of great assistance to me. My name is **Richard Gama**; I am 30 years old boy from Sierra Leone. My father and I escaped from our country at the heat of the civil war after loosing my mother and two of my senior brothers in the war.

As a result of the political instability in my country after the war, my father established his cocoa and coffee export business in Abidjan Cote d'Ivoire (Ivory Coast) He went to Bouake, a northern city to negotiate for the purchase of a cocoa plantation when he was shot and killed by the rebel troupes fighting to take over the government of the former President Laurent Gbagbo. The death of my father has now made me an orphan and thereby exposing me to dangers.

Before his unfortunate death, my late father called me one day and told me as his only surviving Son that he deposited the sum of **\$ 15 million United State Dollars** in a bank in United Kingdom and my name was used as the next of kin to the depositor, I am living in United Kingdom now as a refugee.

As a result of the present insecurity of lives and property in this country now, I wish to request that you assist me to transfer this fund to your designated account for investment purposes. Also to assist me with a letter of invitation that will make me get a visa to your country for residence in order for me to continue with my education in your country and to invest the fund in a lucrative business venture.

I am willing to give you **25%** for assisting me and extra **5%** for any expenses we will incurred towards this transaction, Please get back to me for further details and send me your private e-mail address with your mobile number on your next email

Regards

Richard Gama
